

Reno Evening Gazette.

VOL. VII.

RENO. WASHOE COUNTY, NEVADA, FRIDAY, MAY 23, 1879.

NO. 46.

The Fleeing Negroes in Kansas.

(Cleveland Leader.)

Mr. R. D. Swain, a former Cleveland, but now engaged in the steel trade at Lawrence, Kansas, is in this city on a brief visit, having arrived from the west but a day or two ago. He was met yesterday by a *Leader* reporter, who tackled him on the exodus question.

"Have any of the fleeing colored men reached your city yet?"

"Oh, yes, any amount of them. There were about three hundred in Lawrence when I left, and on the following day another big delegation was expected to arrive. The great center seems to be Wyandotte City. There must be four or five hundred at that point."

"Colored permanently?"

"No; but few have located permanently anywhere. They arrive in one town and the authorities send them to the next town. They all get to St. Louis, and from there the relief committee send them up to Wyandotte. There is a constant stream of them pouring in all the time."

"How do they manage to live?"

"Wholly on charity. They come with few personal effects. But few of them have either money or provisions, and they look to the citizens for their support. Some have succeeded in getting work, but there is not enough for all."

"Well, where will they bring up?"

"There's no telling. They strike one place, and the citizens send them on to get rid of them. The direction is always further west, and there's no telling where they will stop. Some of them are beginning to grub already, and refuse to go further. In Lawrence they have been making their headquarters at one of the Kansas & Pacific Railroad depots, but that is full now, and I don't know what will become of the rest."

"How do the inhabitants feel about the movement?"

"They hope it will stop before long. Judge Usher, the Mayor of Lawrence, who is quite a prominent man, is going to Washington in a short time to see if something can not be done."

"Why don't they take the land and till it?"

"It requires too much work. You see, a person, in order to make a success of it, has got to come with money enough to carry him through the first year. The first crop never amounts to anything, but the second crop is generally good. The prairie seed has got to be rotated out before the land will grow either corn or wheat. The prospect is not very bright for them, you see. The government will have to take the thing in hand and help them out. In a year or so they may manage to get along well enough."

Removal of Judge Cradlebaugh's Remains.

Eureka Sentinel.

The remains of Judge Cradlebaugh, who died in Eureka in 1872, were disinterred yesterday, by request of his brother, who arrived recently, and will be sent to his former home in Ohio. The Judge, it will be remembered, was territorial delegate to congress, from Nevada, and was also United States district judge of Utah, while Nevada was a portion of that territory. He was the first man who attempted an investigation of the Mountain Meadows massacre, and was first on the ground where it occurred.

He was the first man who received a sabre wound that was ultimately the cause of his death. At the close of the war, he removed to Oregon, he returned to Nevada, and arrived in Eureka early in 1871, and prospected the surrounding country. Although holding federal and other positions for years, he saved nothing from his salary, and was in reduced circumstances at the time of his death. His son still resides in Genoa, Douglas county, in this state.

The Wrong Man Shot.

Gold Hill News.

At 5 p. m. day before yesterday there was a shooting affray at army hall, Silver, between M. Shaffer and S. Washburn, two men who had been interested together in taking rock out of a claim down there. They had a dispute about affairs connected with the business and got to calling names, when pistols were drawn and three shots fired. Neither of the contestants were injured, but Theodore Vinton, superintendent of the Bacon & French mills, got a bullet through the fleshy part of his left arm, near the shoulder. Washburn was the man who fired the first shot and he is, at the time of writing, not to be found.

Russia seems to have the highest death rate of any country that collects mortality statistics. The report of the medical bureau for the year 1877 has but recently been published, and it shows that in a population of eighty millions, the deaths of the year were at the rate of from thirty to fifty per thousand. The ravages of diphtheria put it first in the list of diseases; next comes typhoid fever, and next smallpox. There are about 14,000,000 seafarers in Russia who do not allow vaccination, and this accounts for the large mortality from smallpox. As to the typhoid, it is called in Russia "hunger typhus," for its greatest ravages are always in the famine stricken districts.

The best watch work done in town is in "Goegeg's" mechanical workshop, west side Virginia street, Reno.

Facts From Leadville.

A Leadville correspondent of the *Elmira, New York, Gazette* writes of that camp as follows: "Leadville today is the most corrupt, uninviting and overcrowded city on the face of the earth. Every foot of ground has been surveyed, staked off, and recorded, and the man who journeys thousands of miles in the hope of finding an inch of available ground to squat on, will either have to go on up the mountains or buy it at an exorbitant price. People in the east can form no idea of the crazy stampede that has filled up this country with men, who vainly expect to make a fortune here in a month, return to the states, start a bank, live in luxury, run for some office, and forever afterward live on the fat of the land. How these hopes have been realized is easily seen by standing on the street corners and conversing with the half-clothed, idle men waiting for something turn up, or for friends to send them money to get home again. The time for poor men to come here is past. The chances of success are just about equal, and nobody without plenty of capital has any business to buy land in Leadville. Situations are not to be had at any price at present, and I advise young men to stick to their jobs rather than risk their lives in such a community as is congregated here. Men sleep on manure heaps to keep from freezing to death, and the streets are crowded with half-starved men, without a cent in their pockets or an ounce of food in their stomachs. The situation is simply appalling, and unless the stampede to Leadville is stopped there is no telling where the suffering will end. In Leadville at present flour is selling for \$28 per barrel, eggs sixty cents a dozen, butter one dollar per pound, and everything else in proportion. There are probably two thousand women here. Perhaps one quarter of the number are married, one quarter will be to— and the other half, ought to be. The principal gambling games are faro banks, mustang, high ball, poker and keno. The stories circulated about the prosperity of Leadville, and the advantages offered here, are all bosh. It is like all other speculative excitements, and will die such a death. A few will grow rich at the expense of many and the poor people will be the principal sufferers."

Silver City Notes.

Silver State.

The Reindeer mine has been bonded by a Sacramento company, and work will be commenced on it next week.

E. P. Torrey recently leased the Big Prize mine. He has a force of twenty miners at work, and has struck a body of the richest ore ever found in the mine.

James Byrns' team is being loaded at the Bullion mine with twelve tons of ore, for shipment to Salt Lake. The ore is assayed and is expected to work \$800 per ton.

Abe Choneweth has struck it rich in the Rattler mine, which is located near the mouth of the canyon, below Spring City. In sinking a shaft he cut a two-foot vein of ore, which assays from \$200 to \$600 per ton, at a depth of fifty feet from the surface.

There is considerable excitement at Spring City over a walking match, which commenced Wednesday and is to continue for six days and nights, for a purse of \$250. The pedestrians who are contesting for the championship and money are William Costella and Thomas Boyd. They started even, and the one who walks the greatest number of miles in the time specified, wins. The walking is going on in Siskron hall. W. T. Burns and John Clayton are the Judges, and Thomas Hale, W. Shafer and Frank Puges are the timers.

Washington City Notes.

Gen. Sherman has gone to house keeping again in Washington in Admiral Almy's former residence, but Mrs. Sherman will not mingle much in society. Secretary Sherman's family have gone to Europe for the summer. Senator Jones has given up his house, which is owned by General Butler, who will probably occupy it himself. Levi P. Morton has leased a large house at Fifteenth and H streets, opposite Chandler's and lavish entertainment is expected of him. Speaker Randall's wife and daughter continue their Wednesday receptions. Admiral Worden has built a house in R street. Miss Mary Thornton, daughter of the British minister, has recovered from severe sickness. Admiral Harwood's daughter, Jessie, has been performing Mrs. Jarley in a wax works show. Count Brunetti, secretary of the Spanish legation, is soon to marry a daughter of Admiral Lowary, and the minister from the Netherlands is also to take a Washington wife. Senator Cameron has moved into the former residence of Boss Shepherd.

Death Doing.

Richard Mills, Sr., father of Al. and Dick Mills, long time residents of this city, died last evening. Deceased had for a number of years been afflicted with asthma and bronchitis, and although at times being in seemingly good health, his death was not unexpected. On Monday last he was on the street, apparently pale and weary for one who had been so long an invalid, but a relapse occurring, and his system being so saturated, death found an easy victim and his spirit passed away. The funeral took place yesterday afternoon.

The best watch work done in town is in "Goegeg's" mechanical workshop, west side Virginia street, Reno. April 23.

'49 Mining at Tuscarora.

[Times-Review.]
Messrs. Irwin and Devlin have rigged a rocker and are washing the dirt of the dump pile at the Young America hoisting works. The apparatus is similar to the old forty-nine cradle, excepting it is larger and the beds are made of copper plates instead of lumber. The water which they use comes from the Independence and Diana mines. The dirt will average three or four cents per pan. The gold is very fine and hard to save, but Mr. Irwin thinks when the plates are set they will make fifteen or twenty dollars per day. The novelty of the process attracted around the "works" quite a large number of persons, among whom were several old Californians, who had marvelous tales to relate of the big cleanups they made with "these things" in the halcyon days of slapskabs, beans and forty-nine.

Dr. Mintie's Nephritis.

Dr. Mintie's Nephritis works wonders. In all cases of Dropy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephritis. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed.

What the Druggists of Portland and San Francisco say about Dr. Mintie's Nephritis and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephritis, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street, Portland.

C. H. Woodward & Co., Druggists, corner First and Alder street, Portland.

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephritis as the best kidney and Bladder Remedy before the public."

All Druggists keep these medicines.

All the arrangements of the Liver.

Use Dr. Mintie's English Dandelion Pills.

For Brightness and Dyspepsia,

Use Dr. Mintie's English Dandelion Pills.

For Fever and Ague,

Use Dr. Mintie's English Dandelion Pills.

Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended.

GIVE EVERYBODY A CHANCE.

Land monopoly is a curse. It retarded progress, stifled agricultural development, and held the mass of non-landholders in a sort of bondage. As a matter of equity it is unjust. A man has as much right to the soil he treads as the air he breathes. It is a great political evil. Men who own no land cannot be expected to have the patriotic love of country they would have did they possess a portion of its soil. A man with a farm, be it ever so small, feels that he is a monarch within its boundaries. Here in Nevada, where the area of tillable soil is limited, there should be no large farms. The smaller the farms are the higher is the state of cultivation reached; land becomes more valuable, better crops are produced, employment given to more people, and a larger population sustained. Besides, the general prosperity is greatly enhanced. The solid foundations of France's enormous wealth are the six millions of small farms into which her territory is sub-divided. The intense patriotism of the French people is more than anything else due to these small farms. Every man who owns a patch of land feels that he and his land are integral parts of his country, and that in upholding his country's credit and honor he is doing it as much for himself as for anybody else. If the lands of this country were cut up into small farms like France we would be more prosperous, more patriotic, more moral and more industrious than we are now, and fewer tramps would be walking our highways in search of work. A man has the right to own as much money as he can accumulate, as many houses as he can erect, or as many ships and railroads as he can build, because they are all creations of man's ingenuity and industry. But no man has the right to monopolize the soil of God's footstool, the common heritage, like life, of all. A man has a right to all the property he can honestly make, but he has no right to exclude his neighbor from that which is his by a natural, inherent and inalienable title.

EDITORIAL NOTES.

The coming gubernatorial contest in Ohio is attracting a great attention. Ohio is a pivotal state, and the result of the election will powerfully influence the Democratic and Republican national conventions next year. She has prominent Presidential aspirants in both parties, and if any Ohio man expects to get the nomination his party must carry the State this fall. The contest will probably be between Sherman and Thurman. Should it be the case, one of them will almost to a certainty be a Presidential nominee.

AN INVADER OF INDIAN TERRITORY. "Here, indeed, is a paradise. The very gardens of the gods could not equal this heaven-kissed country in its fragrance, beauty and the perfume of its flora, that fills the air with an aroma more delicious than was ever wafted on the gentle breeze that fans the isles of the blessed." — *Sacramento Bee*.

"You are mistaken. It was the local scribe of the *Carson Tribune* who rode his Pegasus high horse after that style.

"Man is frail." Bob Ferguson is at it again. He addressed a Republican meeting in Bodie the other night. If there is one thing more than another that Ferguson likes to hear it is the sound of his own voice. He has spoken on every side of every political question that has come up in the last fifteen years, lectured and made temperance speeches—and probably never originated an idea.

Judging by the increased mystery which daily surrounds the murder of policeman Scott, the old saying that "murder will out" is about played out. — *Sacramento Bee*.

Considering the usual result of murder trials, in the event of its coming out the people would find themselves out-of-pocket.

We have heard of play grounds, burying grounds and coffee grounds,

but "insane grounds" is a huckleberry over our persimmon. A contemporary uses the term, and we suppose it refers to the editorials in the *Stock Exchange*.

Messrs. Hoole & Elliott have commenced the publication of a weekly paper at Mammoth City, Lake district Cal., called the *Mining Review*. It is a very neat six column paper, and we trust will prove a paying venture.

If George Washington were alive and lived in California, he would be called a "theiving land grabber."

Church vs. State.

New York Sun
Some exegitement has been occasioned among the Roman Catholics of Michigan by the expulsion from the State Institution for the Deaf, Blind, and Dumb, of several blind Roman Catholic children, who, in obedience to their priestly adviser, refused to join with Protestant children in singing a mass by Mozart. The priest, Father Haire, upon being consulted by the children, told them that singing a mass under the circumstances described was against the customs and laws of the church; that to sing the mass thus was wrong, for it was joining in worship with Protestants, and if they did not sing the mass as worship they were taking the holly name in vain. The children thereupon refused to sing. They were taken before the board, and as they persisted in their refusal on the ground that they could not conscientiously disobey the laws of the church, six of them were expelled. The affair will probably result in an investigation by the legislature.

The Geneva Sensation.

Carson Tribune.

The trial of R. C. Guirada, the well-known druggist, accused by the Douglas grand jury of the crime of bigamy, came to a conclusion Wednesday at Genoa. Judge Rives, who officiated during the trial, after stating that the state had made no case against the defendant, ordered the jury to acquit. Notwithstanding the instruction of the court the jury refused to bring in a verdict, announcing that they, after a number of ballots, had voted seven for conviction and five for acquittal. The action of the jury is unaccountable. To an outsider it looks as though the majority of the jury entertained feeling other than friendly for Mr. Guirada. The jury's obstinacy will entail the expense of another trial to Douglas county.

Convicted for Murder.

C. F. Reynolds, the court reporter, telephoned to the *Carson Appeal* that Charles Buck, formerly book-keeper with the Northern Belle mining company, who shot and killed another attache of the company in a moment of unguarded passion, last fall, was Wednesday convicted of murder in the second degree, at Aurora.

To the Good People of Reno.

Having entered the field with the balance to contend for a share of the public patronage, it would perhaps be well at the start to state our claims to the above. I am not a sufferer by the fire, we claim, no sympathy on that score. I believe it's the duty of the good people to give preference to old residents, provided all things are equal, but if Brown asks fifty cents for what Smith is willing to sell for twenty-five, on the grounds that he is lower by the fire and wants to get even, the trade will naturally go to the latter. Hence I say we have no claim on the people except to those who may wish to economize. If you wish to buy your wife a fine silk dress by all means go to Enrich. If you want a suit of fine clothes go to friend Nathan's or Abrams', but if you want a "goosy yoke," rat trap or jack knife go to Yankee Dodge's, where a dollar will buy a basketful. Recollect goods just as square as though sold over a marble counter. A child that can list up the names of the articles wanted, can buy just as cheap as an expert.

P. S.—Money will be refunded on all goods that do not prove as represented.

NOTICE.
IN THE DISTRICT COURT, SECOND Judicial District of the State of Nevada for Washoe County, GEORGE W. H. BUDDE, Plaintiff in Suit, presents to an order of Hon. S. D. King, Judge of the above entitled court, notice is hereby given to all the creditors of George W. H. Budde, an insolvent debtor, to be and appear before the said Judge in the court room of said court, at Reno, in the county and state aforesaid, on the Thirteenth day of April, A. D. 1879, at ten o'clock A. M. of that day, and to show cause if any they can why the said insolvent debtor should not be granted and an assignment of his estate be made and be discharged from his debts and liabilities in pursuance of the statute in such case made and provided, and in the meantime all proceedings against said insolvent be stayed.

Witness my hand and the seal of said Court this 17th day of April, A. D. 1879.
MARK PARISH, Clerk.
